PROFESSIONAL SUMMARY

B.Tech Information Technology student and software developer with hands-on experience building full-stack applications, backend APIs, and database-driven systems. Experienced with Java, Go, React, PostgreSQL, REST APIs, authentication, and deployment. Interested in backend engineering, problem-solving, and developing reliable, maintainable software.

EXPERIENCE

Independent Software Development **Nagpur, India**

- Built and maintained full-stack applications integrating user interfaces, backend services, and relational databases.
- Developed REST APIs and backend functionality using Go, PostgreSQL, and GORM.
- Implemented authentication, role-based access, database operations, and frontend-backend integration.
- Used Git, GitHub, Postman, and cloud deployment platforms for version control, testing, and troubleshooting.

PROJECTS

CyberSaarthi — AI-Powered Criminal Network Analysis **SIH Project**

- Contributed to a team project designed to help investigators explore entity connections and relationships relevant to criminal network analysis.
- Worked with a React and TypeScript frontend and a backend architecture involving FastAPI, PostgreSQL, and Neo4j.
- **Technologies:** React, TypeScript, FastAPI, Python, PostgreSQL, Neo4j.

KisanConnect — Agriculture Support Platform **Full-Stack**

- Developed an agriculture support platform with structured user workflows, authentication, and role-based access.
- Built backend services and database integration with a React frontend.
- **Technologies:** Go, Gin, React, PostgreSQL, GORM, JWT.

Iron Track Gym — Gym Management Application **Full-Stack**

- Developed administrator and member workflows with authentication, user management, and database-backed functionality.
- Integrated frontend and backend services and worked on deployment and API troubleshooting.
- **Technologies:** Go, React, Vite, PostgreSQL, JWT.

TECHNICAL SKILLS

Programming Languages: Java, Go, C++, JavaScript, TypeScript, Python

Backend & Frameworks: Spring Boot, REST APIs, Gin, GORM, JWT Authentication

Frontend: React, Vite, HTML5, CSS3

Databases: PostgreSQL, SQL, Neo4j

Tools & Platforms: Git, GitHub, Postman, Docker, VS Code, Linux, Render, Netlify

Core Concepts: OOP, Data Structures & Algorithms, Database Design, API Integration, Debugging

EDUCATION

G H Raisoni College of Engineering, Nagpur **2025 – 2028**

B.Tech in Information Technology CGPA: 8.42

Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU)

ACHIEVEMENTS

- **GHRCE Internal Hackathon:** Top 50 Team Certificate.
- **Smart India Hackathon:** Contributed to the CyberSaarthi team project. Add the confirmed selection status and year if applicable.
- Built and deployed multiple full-stack applications demonstrating practical software development skills.
